NOTICE TO DRIVERS OF COMMERCIAL VEHICLES

The Commercial Motor Vehicle Safety Act of 1986 requires drivers of commercial vehicles to meet certain requirements. A commercial vehicle is defined as a vehicle with a gross vehicle weight rating of 26,001 or more pounds, or designed to carry more than 15 passengers, or a vehicle carrying hazardous materials.

- Commercial vehicle drivers **must report convictions of all out-of-state traffic (other than parking) moving violations to the state in which they are licensed.** Washington State drivers can use the report form on the back side of this notice. Reports must be made within 30 days of conviction or bail forfeiture.
- Commercial vehicle drivers **must notify their employers if their license has been suspended, revoked or cancelled, or if they are disqualified. They must also report all traffic violations (other than parking) to their employer within 30 days of conviction or forfeiture of bail.**
- When applying for employment, drivers of commercial vehicles must provide at least ten years prior employment history.
